**** The City of Bella Vista and the Bella Vista Architectural Control Committee permits are required.**

**** The Bella Vista Architectural Control Committee has the final approval of any color, construction, material, etc.**

ACC Requirements:

- **Approval:** The ACC requires preliminary and final approval for all solar collection systems.
- **Flat Collectors:** Solar collectors must be flat to the roof.
- **Mechanical Portion:** The mechanical portion of the system must be inside the structure.
- **Skylight Review:** All glass, plastic, or other transparent skylight or solar devices must be reviewed and approved by the ACC.
- **Clear, Bronze, or Gray Glazing:** Clear, bronze, or gray glazing is required for skylights.

City of Bella Vista Requirements:

- You must schedule an inspection for each phase of your project.
- You can schedule an inspection by calling (479) 268-4980, emailing permits@bellavistaar.gov, or using the home portal.
- You have 180 days to start work after the permit is issued.
